

## **Communications Committee Report**

February 5, 2012

Work is continuing on the Spring Newsletter, slowly but steadily. The core articles, from Will Kempan, Mark Essenberg, Roland Pokarny and me are in the second draft stage. The themes include, economic theory, impact of inflation rates, investment advice, and HR practices.

We've had some lively story development discussions, and there is great potential for more stories for future editions. The publication objective is for the end of March.

Further submissions by Board Members, of either editorial or news content is most welcome.

Stephen Gillies  
Communications Committee Chair
