

Young Member Mixer Report

December 6, 2014

TEAM hosted a "Young Member Mixer" on the evening of Thursday December 4th, 2014. The evening exceed my expectations.

Over 15 young members attended from a wide variety of departments across MTS. It provided a great opportunity for TEAM to engage with these members on an informal and friendly basis. The event provided an opportunity for everyone attending to meet other young people at MTS. It was quite obvious that most of the young members did not actually know each other. Once everyone had settled in and conversations had begun it was clear that everyone was enjoying themselves. I was able to gain many excellent pieces of information in regards to the desires and concerns of young TEAM members through our discussions.

After the event I received feedback from a few of the attendees that they had greatly appreciated the opportunity to meet other young members from different departments, and thanked TEAM for holding the event. I am hoping to carry forward with this momentum in the coming year to help foster and develop greater involvement in TEAM by these young members and hopefully attract even greater attendance numbers for future events through word-of-mouth and peer-invitations.
